"Those who know the present can recognize the past. Those who recognize the past can see the future." from 'Spring and Autumn' of Lü Buwei (chinese merchant, politician and philosopher)

Our society set oneself to support the research in the provinces Starkenburg, Rheinhessen and Oberhessen of the former Grand Duchy Hesse and the later People's State of Hesse.

The groups in the districts and the regulars' tables organize local events. The meetings will be announced on our website.

Since the 17th century church books have been systematically kept. In our member area you can find more than 500 000 digitized pages of church book duplicates from the years 1808 – 1875. The scanning of additional books is on-going.

Members have started to transcribe book entries. So the data can be searched and easier used by other members.

Registry offices of the communities were introduced in the German Empire in 1876.

Church books and official registries are the basis for familiy search. The data from the sources has been edited and published for

communities. The HfV supports the publication of such area bound family books. We also created a series of 60 books.

We have digitized and indexed this archive, consisting of more than 500 000 record cards. It is available in the member area. Our magazine "Hessische Genealogie" appears four times a year.

Every month we inform our members about current topics with our newsletter by email.

Wir sind seit einigen Tagen Zeugen eines nicht mehr für möglich gehaltenen Krieges in Europa. Zudem ist die Corona-Pandemie noch nicht überwunden und die Klimaerwärmung geht auch immer weiter. Wir können uns also ein wenig hineinfühlen in die Lage unserer Our office is located in the "Hessisches Staatsarchiv" (public record office) Karolinenplatz 3, 64289 Darmstadt
